The MARYLAND GAZETTE.

[XVIIIth Year.] THURSDAY, March 3, 1763. [No. 930.]

STETTIN, November 26.

PART of the brave Garrison of Schweidnitz, after surviving so many Dangers and Fatigues at the famous Siege of that Place, hath perished at the Mouth of the Oder. Sixty Barges, on board which they were put, with other Prisoners of War, to be carried to Konigsberg, being overtaken by a Storm, Part of them were dashed against the Rocks, and the rest sunk. Of the whole Number only nine Men were saved.

Hague, Nov. 29. Letters from Hamburgh, of the 23d ult. advise, that the Differences between the Courts of Petersburgh and Copenhagen were adjusted; and that Prince George of Holstein was going, about New-Year's Day, to reside at Kiel, in Quality of Stadtholder of Ruslian Holstein.

Vienna, Dec. 3. The Empire appears to be greatly alarmed upon the March of several Corps of Prussians into the Heart of it. General Kleist has taken Possession of Hamburg; Nuremberg and Ratisbon have shut their Gates, and removed the military Chest belonging to the Army of the Circles, into Bavaria. The Hostages, which were detained at Nuremberg, are sent to Amsbourg.

A Conspiracy against the Empress has been discovered at Moscow, in which some Officers of the Guards were concerned. The Plot being discovered, the chief Conspirators were arrested, and tried. The Senate condemned them to different Kinds of capital Punishments; but the Empress's Clemency converted the Sentence of Death into Banishment.

Dec. 7. We hear from Berlin, that Conventions for a Suspension of Hostilities for the Winter Months, have been concluded, as also, between the Austrian and Prussian Armies, both in Silesia, and the Electorate of Saxony.

Frankfort, Nov. 5. An Order is received from Versailles, to make the Troops take the Route to France in the Space of eight Days.

Moscow, Nov. 20. We hear that the Disputes between his Prussian Majesty, and the Court of Great Britain, are amicably adjusted; and there is little Room to doubt, but that a Peace will be concluded this Winter between his Prussian Majesty and the Empress Queen, through the Intervention of the Courts of Great Britain and France.

LONDON, *November* 23.

To counterbalance, in some Degree, the Excess of keeping French Prisoners, we have reaped great and national Advantages by it, viz. The Act of making Candles, which are allowed are now making to the greatest Perfection, at an old Monastery, near Arundel, in Sussex. Nor is this the only Place where these Prisoners have rendered themselves useful, for at Leeds, Pontefract, Halifax, and other Towns in Yorkshire, they seem to be almost naturalized, and work in their different handicraft Branches, by which they subsisted while in France.

They write from Rome of the 26th ult. that the old Chevalier de St. George had, on the 13th and 14th, two very severe Fits of the Apoplexy; from which it was thought he could not live long, he being 73 Years old, and having been blown over by his Physicians.

Besides the Bills attending *Stalling* and *Boring* in Change Alley, there is now arising from Brokers, which a general Peace will remove, we mean that of insuring the Ships of our Enemies, which lately appeared in a very particular Manner, on a certain Jew's Shooting himself; after receiving Information that the Bonnicow, on which he had underwrote 20,000 l. was fallen into our Hands.

Nov. 30. A Letter from Coutray, dated November 14, says, "The Allies Head Quarters are reduced greatly. The Regiment of Portugal, though at present they keep nothing but the Peace. They have left some of their Sick and wounded behind them at Cuilenburg, recommending them to the Care of the Burgomaster. The whole Army lies along the King of Poland, Elector of Saxony, is negotiating a Treaty of Peace with the King of Prussia.

The Marquis de Marigny, a Legion of Marques, from Rochelle to St. Domingo, is taken by his Majesty's Ship Torbay, commanded by Capt. Rathbone, and is carried into Plymouth-Road. The Prize mounted 24 Nine-Pounders, and 198 Men; and had nine Men killed, and 18 wounded in the Action. — Captain Rathbone was wounded in the Arm by a Musket Ball, but is likely to do well; five of his Men were killed, and thirteen wounded. — The first and second Captains of the French Ship had each of them an Arm, and The Turpichore mounted 22 Six-Pounders.

We have the States of Holland have granted Leave for our Troops, that are returning from Germany, to march through their Territories, and embark in Holland for England, which will very much shorten their Way.

December 2. According to Letters from the Hague, of the 29th ult. it was said that the Hereditary Prince of Brunswick is to come to London in the Month of February next, to marry a Princess of England.

They write from Vienna, that the Austrian Gen. Brunian was brought there the 19th instant, under a strong Escort, being accused of holding an illegal Correspondence for two Years with some of the Prussian Generals; all the ill Success that has happened to the Austrians in that Time is laid to his Charge. It was General Haddick that detected him; and the Austrian Ministry have requested the Empress Queen to bring him to a speedy Trial by a Court Martial.

"A Letter from Cadiz says, "The Inhabitants of Cuba would not take up Arms, and act in Concert with the Garrison, because they were discontented. 1. On Account of the Havannah Company, against which they had more than once made fruitless Remonstrances to the Court. 2. They did not like the new Duty of Five per Cent. on Sugars. 3. They were mortified by a Report current in the Island, that they were to be subjected to the Million impost, which is the heaviest Tax in Spain."

The Brune Frigate brought into Gibraltar, the 9th of November, a French Frigate of 36 Guns, after an obstinate Engagement.

Dec. 4. Private Letters from Holland advise, that the Empress Queen being informed that the King of Poland was on the Point of making his Peace with the King of Prussia, had signified to him, that notwithstanding the Disadvantage which the Army of the Empire had suffered on the 29th of October, she had ordered as many Regiments to be detached from Silesia to Saxony as would be sufficient to make Head against the Prussians, and dislodge Prince Henry from his Advantageous Posts before the Armies went into Winter Quarters; and that if she continued the War, it would be rather to obtain an Indemnification for Saxony, than to procure advantageous Terms for herself.

We learn from Hamburgh, that the News of the Preliminaries being signed, was received in that City with great Joy; as they hoped, that by the good Offices of England, their Differences with France would soon be accommodated. They continue to ship at Hamburgh great Quantities of Corn, and other Provisions, to be sent up the Elbe for the Use of the Prussian Troops.

The Ogden Man of War, from New-York, is arrived at Portsmouth, with several Merchant-Ships under her Convoy.

The King of Prussia, Cromartie, and the Boscawen, Jacobson, both from Boston, arrived in the Downs on Wednesday; the King of Prussia sailed with the last West-India Fleet, but soon after springing a Leak, she bore away for Boston to repair her Damages; and in her Passage from thence she fell in with a Privateer of 28 Guns, which, after an Hour and an Half sharp Engagement, she obliged to sheer off.

The Spanish Privateer being obliged to run from the King of Prussia, bore down upon the Boscawen, and passed into her a Broadside, which Capt. Cromartie luffing, run between the Privateer and the Boscawen, and began again to engage the Privateer so warmly, that she made all the Sail she could from them, and did not appear afterwards. The King of Prussia mounted only 20 Guns, was Ship built, and had but between 30 and 40 Men.

Extract of a Letter from an Officer to Portugal, dated November 2.

"The Count La Lippe has put our Army into Cantonments, as they were suffering greatly in Camp, by the severe Rains we have had lately, but in such a Manner that they will be able to assemble in a few Hours. His Highness is at present on the Alsatian Side, near Nissa, watching the Motions of the Enemy, and does not intend stirring from thence till he is certain what their Intentions are. It is scarcely possible for me to give you a proper Idea of the unwearied Pains the Count has taken, and the numberless Difficulties he has had to struggle with ever since he came into this Country. I believe few Men of his Rank have bodily Strength sufficient to go through the Fatigue he has taken. The perfect Knowledge which by this he has obtained of the Country, has enabled him, by dividing and thwarting every where his little Force, to impose on the Enemy by Appearances, and to baffle all their Attempts; though, at the same Time, had every Regiment under his Command been joined, they would scarcely together have been equal in Number to the Grenadiers, Picquets, Light Troops, and Brigades of Guards which generally formed the advanced Corps of the Spanish Army. When the impartial Part of the World considers every Circumstance of the Situation which the Count has been in, they will think that he has acquired more real Honour by this Campaign, than others have done by their most brilliant Successes."

Yesterday the Merchants trading to the Caribbee Islands, met at the King's Arms Tavern in Cornhill; when they agreed to meet again next Monday, to draw up an humble Address to be presented to his Majesty, praying to be better secured in their Property, before their Islands are evacuated by the English.

The Brig that foundered, bound to New-York, in the Friendship, Wardell, laden with Iron, and other Goods.

It is reported that the Number of Seamen to be employed for the ensuing Year, will be 30,000, which is more than double the Number kept up the Year after the Peace was concluded.

We are informed that the Saxon Troops which made a Part of the French Army, are to be put into the Pay of the Empress Queen.

We learn from the Hague, that since the Preliminaries were signed, the States have laid aside the Thoughts of augmenting their Navy, and are now considering of Ways and Means to keep it on the Footing it was on before the War.

We hear there is a Reconciliation between two of the first Persons in the Kingdom.

Saturday Morning last 150 of the Artificers, &c. belonging to the Dock-yard at Chatham, were discharged from the Service.

There has been a thorough Discharge in the Caserne at Portsmouth. A Discharge is likewise expected in the Dock-Yard next Monday.

When the last Accounts came from Silesia and Saxony, the Troops on all Sides were preparing to go into Winter Quarters.

It is rumoured that 20 Millions of Money will be required for the Service of the ensuing Year.

Dec. 7. The Lockhart, Coates, from Glasgow to Virginia, is taken by a Spanish Felucca, and ransomed for 300 l.

Workmen are employed at Somerset-house, in fitting up in an elegant Manner, Apartments in that Palace, for the Reception of his Serene Highness, Prince Ferdinand of Brunswick, who is soon expected here from Germany.

December 9. The King of Prussia has detached 25,000 Men to Franconia, who have taken Possession of Bamberg; and it is said reduced Forcheim. The Alarm has spread even to Nuremberg, from whence the Prussian Hostages were sent to Ratisbon; but the Magistrates of this Place refused to receive them. The Brandenburgh Minister at Ratisbon says, the Design of this Expedition is to compel the States of the Empire to withdraw their Troops from the Army of the Circles.

Ziegenhayn, Marburg, and Giessle began to be evacuated on the 28th past.

The French Deserters, who served in the Britannic Legion, and other Regiments of the Allied Army, arrive in Shoals at Hamburgh, with Passports from Prince Ferdinand. From Hamburgh most of them go to Saxony, to enlist among the Prussians, where they will be well received, as a speedy Accommodation between his Prussian Majesty, and the Empress-Queen, is not expected.

About 30 Transports are to sail in a few Days to Williamstadt in Holland, to bring over the English Cavalry from Germany. All our Troops are to return Home by the Way of Holland.

Extract of a Letter from Paris, dated Nov. 25.

"The Count de Stahremberg, after having demanded of our Ministers some Eclaircissements relative to the Conditions of Peace laid down in the Preliminary Articles, communicated to them the last Propositions made to his Sovereign, by the King of Prussia. They are such as no Court can think her Imperial Majesty might accept with any Propriety or Decorum. One Point especially, which suspends all the Effects of the pacific Disposition of the Empress-Queen, is the obstinate Refusal of the King of Prussia to agree to any Indemnification for the Havock and Desolation caused by his Troops in the Electorate of Saxony."

Dec. 11. A Letter from Paris says, "That the Joy expressed by the Merchants, Tradesmen, and all Ranks of People in France, upon the Conclusion of the Peace, is not to be expressed."

We hear that a Bill will be brought into Parliament, for the Relief of Sailors and Soldiers discharged this War.

We hear that several Brokers have already received Commissions to purchase Shipping for the French Service.

There are near 100 Men of War ordered to be laid up as soon as possible.

The Bombs, Fire-Ships, and Sloops of War, that are deemed superfluous and old, are to be ordered up the Thames, to be sold, with their Stores and Rigging.

A Reduction is ordered among the Marines, which is to begin with those who enlisted only for three Years, or during the Continuance of the War.

It is supposed, and with great Probability of Truth, that not less than two Millions Sterling of Property is owing or engaged for in the Conquered Islands to the British Merchants. An Object not unworthy the Attention of a British Parliament.

We hear that several Regiments of Militia are ordered to be disembodied, and forthwith sent Home.

About Stratford, West-Ham, Plaistow, Waltham-Abbey, and for twenty Miles North of London, most of the Cattle that were in the Fields were carried off, with Stacks of Hay and Wood, the Hogs that were in Sties and Yards, and the Horses that were in the Stables; for the Waters rose twelve Feet in less than five Hours, which was in the dead Time of the Morning, nothing of it being perceived at One o'Clock, and it reached the Chamber Windows before Five; and the Face of the Water was covered with the Bodies of the Beasts that perished. This Flood has extended over all the Marshes; and the Current is so strong in the Roads that no Horse can get through it. There have been several People lost already: A Woman and Horse were driven away by the Violence of the Stream; as was also a Gentleman in a Post-Chaise, who, with the Horses and Post-Boy, all perished in the Water; and three of the Passengers in the Bury Machine, with two of the Horses, were also drowned.

The Houses from the Swan at Stratford to Bow-Bridge, are all overflowed, and the Inhabitants were obliged to get out at their Windows. The Water in the Road was Yesterday Morning above three Feet deep, and came into the Carriages as they passed along.

The Damage done along the Essex Coast by the late Inundation, occasioned by the Land Floods meeting a vastly swelled Tide, are represented as inconceivable.

The Callico Printers about Stratford, &c. have been damaged to the Amount of several thousand Pounds; their Linen being tore to Pieces in their Grounds, and carried away by the Force of the Waters. The Damage done by the Inundation in the Parish of West-Ham alone, is computed to amount to 100,000 l.

We are told that the River Mole, near the Bridge at Box-Hill in Surry, rose 15 Feet on Tuesday last, occasioned by the great Floods.

The 19th of August last, died at Landreci in French Flanders, Mr. Thomas Shortall, a Native of Kilkenny in Ireland, aged 104 Years, seven Months, and five Days, being born the 21st of December 1657. He had eat and drank with his Friends as usual the Day before, and expired without feeling any Pain.

At the Siege of Limerick in Ireland, in 1691, he was Captain of a Company of 100 Men in Grace's Regiment; and when a Part of the Remains of the Irish Army went the same Year to France, and was regimented, Shortall was put upon Half-pay. He afterwards entered as a Cadet in Clark's Irish Regiment, in which he obtained a Pair of Colours on the 20th of January, 1694; and the same Year was put upon Half-Pay. He served afterwards, for three Years, in the Gendarmes. April 30, 1698, he was appointed Lieut. on Half-pay in Clark's Regiment: October 23, 1708, Lieutenant of Grenadiers: Oct. 14, 1709, Aid Major: Sept. 6, 1710, he got the Rank of Captain on Half-Pay: Nov. 15, 1719, he was made Captain of Foot: June 6, 1729, a Knight of St. Lewis: Dec. 4, 1731, Major; and Lieutenant-Colonel on the 10th of June, 1745, after the Battle of Fontenoy, in which he received a Shot in the Throat. He retired from the Service, Jan. 31, 1752.

After his Death, there was found among his Papers, a Schedule of his Estate in Ireland, which consisted of 6400 Acres, and several fine Seats; all which were confiscated to King James's Successor. Of upwards of 30,000 Irish that went over to France with him, and of upwards of 100,000 who have gone over since, he was the sole Survivor.

Bristol, Nov. 20. Tuesday Night between Eleven and Twelve o'Clock, a Fire broke out at an House in Unity-Street, near St. Philip's Plain, the most affecting and deplorable that has happened for many Years. The House was full of poor People, in all twenty-four Persons. How the Fire began is uncertain, but it had forced its Way almost to the Top of the House before any of them were apprized of it. All the Tenants in the back Part of the House fortunately made their Escape; but those in the fore Part were very near perishing in the Flames: In the first Story lay a Man, his Wife, and three Children; who all saved themselves except the Son, a Lad about eleven Years of Age, who was burnt to Death; In the second Story, lay a Man, his Wife, and four Children, the oldest about ten, and the youngest a sucking Infant; the Room was filled with Smoke and Flames before they were awake; the Man ran to the Window to make his Escape, but the opening of it encreased the Fire, and before he could return to the Bed, he saw—distressing Scene! the Floor give Way, and his Wife and Children perish in the Flames; he made his Escape to the Top of an adjoining House. In the Garret, lay an old feeble Woman, and two Children, the Woman was saved, by being taken out at a back Room Window, but the Children were burnt: Their Father lying in another Room, could not possibly come to their Assistance.

PHILADELPHIA, *February* 17.

Extract of a Letter from a Gentleman in London to his Friend here, wrote before the Preliminary Articles of Peace were signed.

"The Conquest of the Havannah, and the Recovery of Newfoundland, at the same Time that they have added to the Glory of our Arms, have nearly silenced the Clamours against the Ministry. We now wait with some Impatience to know how this Blow sits upon the Stomachs of the haughty Dons. If they are foolish enough, from national Pride, still to hold out, we cannot help it, we must proceed, though all Ranks are sufficiently tired of this bloody and expensive War. Nothing transpires yet in regard to the Negociations for Peace; but I will venture to assure you (because I have it from the very best Authority) that if a Peace takes Place, it will be a glorious One. The Parliament meets soon, when, it is supposed, there will be some Opposition to Lord Bute; I think it cannot be great, as there is really nothing to find Fault with. The German War, into which Mr. Pitt was obliged to lead us, to please the late King, is what, of all Things, the Ministry want to get rid of, the Expence of it, being enormous, and the Operations bloody. We lost as many Men in that trifling Affair of Amonebourg, as we did before the Havannah; it was, indeed, a downright Butchery, where many brave Men fell, to no glorious End.—The King of Portugal, if the Spaniards push on the War against him with Spirit, will, doubtless, soon be undone, and will, probably, be obliged to take Shelter here, till we settle Matters for him at a general Peace, which I suppose will be by our giving up the Havannah as a Compensation for reinstating him.—Thus our Alliance will do him most essential Service."

WILLIAM FRANKLIN, Esq; Governor of New-Jersey, and his Lady, are Passengers with Captain Budden, but the Winds having been contrary ever since the Ship got into the Road, they are not yet come to Town.

By a Gentleman from the Havannah, we have the melancholy Account of two Gentlemen (Messieurs Read and Boyd) belonging to this Town, being barbarously murdered there by four Spaniards, who, it was thought, had gone into their Store with a Design to rob them, as they left some Bags behind, being disturbed before they had committed the Robbery.——He also informs us, that Lord Albemarle was gone to England in the Rippon Man of War; that his Majesty's Ship Pembroke likewise sailed with him; and that a Prize was lately carried into the Havannah, on board which was the Governor of St. Jago de Cuba.

We hear that the Mars Privateer, Capt. Wright, of New-York, has taken a rich Prize Ship, bound to Cape Francois from Old France, and that the Vessel is arrived at Sandy-Hook.

*** The PUBLICK are desired to beware of Counterfeit THREE POUND New-Jersey Bills, which, of late, have appeared among us.—They are badly done on a Copper-Plate, dated April 8, 1762, and are Printed on three Folds of Paper, pasted together, the Letters in the whole Bill being very irregular, and standing much out of Line; whereas the true Bills are neatly and regularly done in the common Printing Manner, and Printed on 2 Folds of Paper. In the first Line of the Face of the Counterfeit, the O in POUNDS is shorter and thicker than the other Letters in that Word; and in the third Line the last S in JERSEY, is not like a Printing Letter is made in the Manuscript Letter used in Writing. In short, the whole is so ill executed, that we think, after this Notice, no Body can be imposed on by them.

The PUBLICK are also desired to beware of Counterfeit THIRTY SHILLING Bills of the same Money.

ANNAPOLIS, *March* 2.

By a Letter from a Gentleman of Veracity in *Baltimore* County, we have the following remarkable Account, viz. "A Gentlewoman of this County "being struck with Surprize, on seeing a Clock "with the Representation of a Boy's Face, and "his Rolling Eyes, mov'd by the Pendulum, was "some Time after delivered of a Son, who is now "about twelve Years of Age. I had never heard "of this Case till about Two Years ago, when, "on Sight of the Youth, the Figure in the Clock "immediately occurred to me, and on Enquiry, "the Parents related the above: The Youth is "Comely; but has that constant Rolling of the "Eyes, with a Side Motion of his Head, corresponding to the Time of a Clock."

Last Friday we had the deepest Snow which has fell here this Winter; but 'tis now almost all melted away.

The Country back is very extensive, and the Soil capable of producing Tobacco, Corn, Wheat, Flax, Hemp, &c. in great Perfection.

It's equal Convenience for Transporting any Commodity to the Waters of the *Ohio*, is obvious to any one that will give themselves the Trouble of examining the Draughts of the Country.

To be SOLD, on Tuesday the 10th Day of April *next ensuing, at* Alexandria, *being Court-Day,*

TWO LOTS, or one Acre, in the said Town, known by the Name of the *Long Ordinary*, consisting of one Dwelling-house, about 90 Feet long, and 24 wide. Six Rooms below, all with Fire-places, and Six Rooms above; a good Cellar, Kitchen, Meat-House, &c. The whole well pailed in, with a Garden distinct.

At the same Time is to be SOLD, One LOT, with a good neat Brick House, about 36 Feet by 24; a good Cellar, Kitchen, and other Outhouses; the Lot is well pailed in. They are both well accustomed Public Houses.

Any Person inclinable to purchase before the Time, may know the Terms, by applying to

CARLYLE *and* DALTON.

AT the repeated Solicitations of several Persons, the *OHIO* COMPANY have agreed to lay off a Number of LOTS for a TOWN at Fort *Cumberland*, near the Mouth of *Will's* Creek, on *Patowmack* River, in the Province of *Maryland*; and that each Purchaser may have an Opportunity of attending, and choosing the Lots he may judge most convenient, they will be SOLD to the Highest BIDDERS on Friday the 15th of *April* next.

Any one who will consult the Maps must see that Fort *Cumberland*, from it's natural Situation and Contiguity to that very extensive and fertile Country on the *Ohio* and its Waters, must be the Key to all that valuable Settlement; it being the highest and most convenient Landing-place for the Inhabitants on the other Side the *Alleghany* Mountains, on all the River *Patowmack*, which affords a Water-Carriage, that with a very inconsiderable Expence, might be rendered safe, certain and easy, at all Seasons of the Year, from the Great Falls to the Spot now proposed for a Town. It is about 75 Miles Land-Carriage to the *Monongahala*, which is navigable to the *Ohio* for flat-bottomed Boats or Battoes; and not more than 65 Miles to the *Youghiogeny*, where the Road, as it is at present cleared to *Pittsburg*, crosses it, to which Place the *Indians* frequently, before the War, brought up their Battoes loaded with Skins: And all who are acquainted with the Country agree, that a very good Waggon Road may be made to that very Spot, or even a few Miles lower down the River, which would reduce the Distance from thence to Fort *Cumberland* at least 15 Miles. The Land-Carriage from *Pinkard's* Warehouse, at the Little Falls, which is the highest Tide Water of *Patowmack*, to the Great Falls, does not exceed 12 Miles; and the Manufactures of *Great Britain* may be transported by the *Patowmack* to the *Ohio*, and it's Produce or Furs remitted through the same Channel, with only 40 Miles Land-Carriage at the most.

Fort *Cumberland* is about 125 Miles from *Pittsburg*, 89 from Fort *Bedford*, 60 from *Winchester*, Land-Carriage, good Waggon Roads, and 100 Miles Water-Carriage from the Mouth of *Conococheague* Creek in *Maryland*.

The Day the LOTS are Sold the *OHIO* COMPANY will LET to the highest Bidder, for a Term of Years, Two very good Store-Houses, opposite to Fort *Cumberland*, in *Virginia*, one 45 by 25, with a Counting-Room and Lodging-Room at one End, the other 44 by 20, with proper Conveniences for a Family to live in, two Stories High each, besides Garrets, Cellars for storing Skins, the whole Size of one Story; and a Kitchen; Stable for 12 Horses, Meat-House and Dairy; there are Two good Batteaus which will be given to the Person who Rents the Houses. The whole entirely new, and will be completely finished, and fit to enter upon immediately; and the Person who takes the Store-Houses may also have a Lease, for a Term of Years, of as much Land adjacent to them as he chooses. And the Company are desirous to grant Warrants for a few more Houses, &c. before the Day of Sale, or the Town Lots, and receive the Terms by applying to the Subscriber, who will attend at Fort *Cumberland* on the 25th Day of *April* before-mentioned, to deliver the Plans and Deeds for those Lots. There is great Plenty of good Timber and Lime-Stone on the Lands, as each Side of the Place a and the Company are building a Saw and Grist-Mill, within a Mile of the Spot proposed for the Town.

The Horse, Mare, or Gelding, that wins any two Heats, wins the Purse; each Heat to be four Times round the Poles; but if three several Horses, Mares or Geldings, win each of them a Heat, then those three, and only they, to run a fourth Heat, and the Horse, Mare, or Gelding, that wins the fourth Heat, shall win the Purse; any Horse, Mare, or Gelding, that wins the first and second Heats, shall be obliged to start again, if required by any of the other Riders, and must save his Distance, to entitle him to the Purse: No Distance a fourth Heat.

In running the Heats, if it cannot be decided, which Horse, Mare, or Gelding, has his or her Head at the ending Post first, that Heat goes for nothing, and they may all Start again, except it be in the last Heat, and the Dispute between two Horses, Mares, or Geldings, if either of which had won, the Purse would have been decided, then they only shall start again.

Every Rider shall after each Heat is run, come to the Scales with his Horse, Mare, or Gelding, then and there to alight and not before, and to weigh to the Satisfaction of the Judges, and in case of Neglect or Refusal thereof, or want of Weight, the Horse, Mare, or Gelding, of such Rider, shall have no Share in the Purse, nor be permitted to start again: But any Rider may (unknown to the Judges) alight previous to his coming to the Scales, and by them, for want of timely Information, be permitted to start again, such Horse, Mare, or Gelding, shall take Place, the same as if it had not happened.

If a Rider falls from his Horse, and the Horse is rode in by another, that is of sufficient Weight, he will take Place the same as if he had not happened, provided he goes back to the Place where the Rider fell.

If any Rider shall cross, jostle, strike, or use any foul Play, the Horse, Mare, or Gelding, he rides, shall be deemed distanced.

Every Horse, Mare, or Gelding, that runs on the wrong Side of the Poles, and does not turn back, or is distanced in any of the Heats, shall have no Share in the Purse, nor be permitted to run any more.

The Entrance Money to be paid to the second best Horse, Mare, or Gelding, that shall start for the Purse.

If there are three Heats run, the Horse, Mare, or Gelding, is second best, that wins one, and if the Purse is won by two Heats, the Preference to be determined by the Place they are in at the second Heat.

The Time of Starting will be between One and Three o'Clock in the Afternoon, and Half an Hour will be allowed between each Heat to run.

All Disputes that shall arise to be finally determined by Messieurs *Thomas Sprigg, Levin Jones*, and *Jonas Green*, who are appointed Judges for that Purpose.
